

The quality improvement learning collaborative model

Preparation

Define collaborative focus

Topic identified problem areas, improvement objectives

Select implementation package

Evidence-based practices, desired procedures, process and result indicators

Design collaborative structure

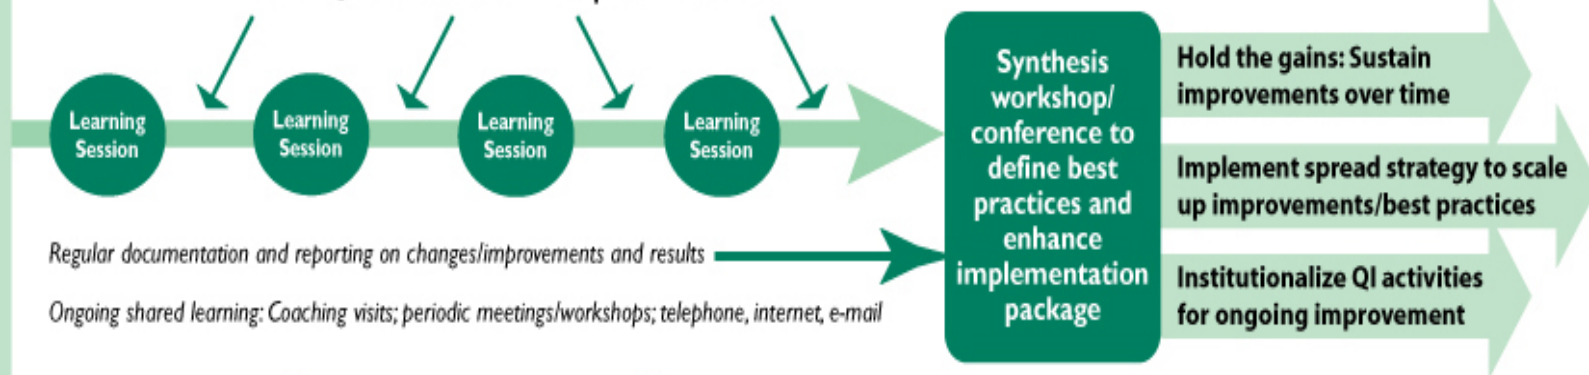

Organizational structure, spread strategy, initial sites

Prepare for implementation

Tools, training materials, monitoring system, support and sharing mechanisms, site preparation

Implementation: Testing and Instituting Changes

Site QI teams test improvements

Model for Improvement

What are we trying to accomplish?

How will we know that a change is an improvement?

What changes can we make that will result in improvement?
